The editor, Ken Smith, has been involved socially, politically, culturally, economically and spiritually in the life of Alaska for over sixty years. He has been Martin's friend for this same period of time. Martin, who physically passed away soon after deciding to write these books, had great expectations for this trilogy. It is our hope that we have at least partially fulfilled those expectations. Martin R. Strand Sr. is a unique transitional person between Tlingit culture and Caucasian culture within the State of Alaska, not just in the past but also in the present. As you read the various selections in the trilogy you will gain an accurate understanding of this personality who was forever seeking to understand other persons, the natural habitat in which he was raised, and the cultural nuances that he received from his grandparents only to be passed on to his grandchildren and others. He is proud but at the same time loving. He is curious but also satisfied with little. Above all

else he 'wants to make a difference' and through these writings he does.

Martin's ongoing Wild Cards alternate-history series, *Three Kings*. In the aftermath of World War II, the Earth's population was devastated by an alien virus. Those who survived were changed forever. Some, known as jokers, were cursed with bizarre mental and physical mutations; others, granted superhuman abilities, became the lucky few known as aces. Queen Margaret, who came to the English throne after the death of her sister Elizabeth, now lies on her death-bed. Summoning the joker ace Alan Turing, she urges him to seek the true heir: Elizabeth's lost son. He was rumored to have died as a baby but, having been born a joker, was sent into hiding. Margaret dies and her elder son Henry becomes king and at once declares he wants to make England an "Anglo-Saxon country" and suggests jokers be sent "to the moon." Dangerous tensions begin to tear the country apart. The Twisted Fists—an organization of jokers led by the Green Man—are becoming more

militant. And Babh, goddess of war, sees opportunities to sow strife and reap blood... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

I Must Say Oct 29 2020 In this engagingly witty, wise, and

heartfelt memoir, Martin Short tells the tale of how a showbiz-obsessed kid from Canada transformed himself into one of Hollywood's favorite funny men, known to his famous peers as the "comedian's comedian." Short takes the reader on a rich, hilarious, and occasionally heartbreaking ride through his life and times, from his early years in Toronto as a member of the fabled improvisational troupe Second City to the all-American comic big time of Saturday Night Live, and from memorable roles in such movies as *Three Amigos!* and *Father of the Bride* to Broadway stardom in *Fame Becomes Me* and the Tony-winning *Little Me*. He reveals how he created his most indelible comedic characters, among them the manic man-child Ed Grimley, the slimy corporate lawyer Nathan Thurm, and the bizarrely insensitive interviewer Jiminy Glick. Throughout, Short freely shares the spotlight with friends, colleagues, and collaborators, among them Steve Martin, Tom Hanks,

Gilda Radner, Mel Brooks, Nora Ephron, Eugene Levy, Catherine O'Hara, Paul Shaffer, and David Letterman. But there is another side to Short's life that he has long kept private. He lost his eldest brother and both parents by the time he turned twenty, and, more recently, he lost his wife of thirty years to cancer. In *I Must Say*, Short talks for the first time about the pain that these losses inflicted and the upbeat life philosophy that has kept him resilient and carried him through. In the grand tradition of comedy legends, Martin Short offers a show-business memoir densely populated with boldface names and rife with retellable tales: a hugely entertaining yet surprisingly moving self-portrait that will keep you laughing—and crying—from the first page to the last.

The Handmaiden's Necklace

(The Necklace Trilogy, Book 3)

Sep 08 2021 Five years ago, Rafael, Duke of Sheffield, believed he was betrayed by the woman he loved and the pain haunts him still.

Creatures of Light Jul 18 2022 Queens, countries, and cultures collided in Woodwalker and Ashes to Fire, the first two books in Emily B. Martin's *Creatures of Light* series. From Mae's guidance to retake Lumen Lake to Mona's eye-opening adventure in Cyprien, we now see things from Gemma's perspective—a queen in disgrace...and symbol of the oppressive power of Alcoro. Queen

Gemma—although she isn't sure she still has claim to that title—is in prison. To her people, it's simply called "The Retreat," but in the middle of nowhere, surrounded by guards and unable to speak to her husband, King Celeno, there's no other word for it. The only comfort she has is knowing she might not be there long—the Prelate has let her know in no uncertain terms the council is, even now,

deciding her ultimate fate. And Gemma would resign herself to that if it wasn't for a mysterious stranger breaking her free and setting her on a course that could change the world. With precious information—and a skeptical travel companion—Gemma must undertake a journey to find answers to the questions that have defined her life for years...and her country for centuries. If she can make this desperate scheme work, she might not just forge peace between Alcoro and their neighbors, but win some peace of heart as well. And, perhaps, she'll learn the same lessons Mae and Mona learned: that being Queen doesn't mean having to do everything alone. *Creatures of Light*—the eponymous third and final book in Emily B. Martin's series—is a novel filled with adventure, betrayal, and a queen's lifelong struggle to love and trust herself.

Now back in print after almost ten years, *Tuf Voyaging* is the story of quirky and endearing Haviland Tuf, an unlikely hero just trying to do right by the galaxy, one planet at a time. Haviland Tuf is an honest space-trader who likes cats. So how is it that, in competition with the worst villains the universe has to offer, he's become the proud owner of a seedship, the last remnant of Earth's legendary Ecological Engineering Corps? Never mind; just be thankful that the most powerful weapon in human space is in good hands—hands which now have the godlike ability to control the genetic material of thousands of outlandish creatures. Armed with this unique equipment, Tuf is set to tackle the problems that human settlers have created in colonizing far-flung worlds: hosts of hostile monsters, a population hooked on procreation, a dictator who unleashes plagues to get his

own way . . . and in every case, the only thing that stands between the colonists and disaster is Tuf's ingenuity—and his reputation as a man of integrity in a universe of rogues. And why wouldn't she, when she's been named after one of Jupiter's many moons? A long-

time assistant to astrophysicist Professor Haven at the University of Colorado Boulder, Elara's unexpected change in employment status couldn't come at a worse time. Even more unnerving is the sudden disappearance of her professor just minutes after their last conversation-not to mention the fact that she's somehow traveled four days into the future . . . with no recollection of those days' events. As more professors begin to go missing and the police begin to ask questions, there's yet another unexpected development in Elara's life: one that goes by the name of Xero Sivalla. A fellow assistant at the university, Xero seems to have inside knowledge on not only the growing number of faculty disappearances, but on Elara herself. As Elara spends more time with Xero, the more she discovers just how wrong her assumptions about life, the cosmos, and existence itself have been. Blurring the lines of reality is one thing, but cracking the entire Universe wide open? She should be so
